Engagement

The Knowledge Commons team presented an update on the work thus far at a workshop that included some key members of the community. A total of approximately 60 people attended in person and via zoom. \$ V V R F 3 U R I Te Maire Tau, the Mayor of the Valley presented their visions for engagement and kotahitanga. Those present then worked on key

workstreams that will support the Knowledge Commons' strategic focus into the future. The Knowledge Commons team will align this information with other data collected by its partners and present this back for wider consultation and engagement as part of the Knowledge Commons' strategy.

The Knowledge Commons team continues to reach out to various organisations, individuals, EXVLQHVHV DQG FRPPXQLW JURXSV WR GHWHUPLQH KRZ continue to collate the 150 stories of impact to support our commitment to sharing UC's impact in our local community.

In election year numerous staff in the College of Arts have been involved in analysis, discussion DQG FRPPHQWU\ RI SROLWLFDO HYHQWV \$ Riddell and PDQ\ GLVFXVVLQJ WKH 86 HOHFWLRQV RQ 51= /LQGVH\ ODF'RQD Relations) provided live analysis of the televised Leaders Debate in Christchurch, whilst the National Centre for Research on Europe, together with the New Zealand Institute of International Affairs (Christchurch) hosted a NZ 2020 election public discussion of foreign policy. The event included four candidates for the upcoming election and was chaired by former UC Arts student, now Strategy and Risk Consultant and former Christchurch city councillor, Raf Manji.

2YHU WKH ODVW WZR ZHHNV WKH 7H 0—W—SXQD 0—W—WDK facilitated six campus experience events for CU members. Two events were held at Lincoln University and four events were held on UC's Ilam campus. The events provided tamariki with hands-on activities in a range of areas including chemistry, biology, geology, engineering and maths. In total 100 tamariki accompanied by 86 adults visited our campus.

At the end of September the Department of Media and Communication welcomed media studies teachers from local schools onto campus for a professional development workshop focussing on visual analysis and developments in journalism. Response was very positive and another one for media studies students, was suggested for term 1, 2021.

UC Centre for Entrepreneurship (UCE) Impact Summit 2020 held on Saturday 10 October brought together some 200 participants from around NZ. Titled 'Every Day Matters', the focus of the day was empowering people to create a more sustainable world, one decision at a time. The Summit, KR VWHG E\ 8 & HQWUH IRU (QWUHSUHQHUVKLS DQG WKH range of students, entrepreneurs, innovators, professionals and members of the wider community to share ideas, engage with each other and take action toward a more sustainable future. RZLQJ D presentation from keynote speaker, Malcolm Rands, Ecostore RXQGHU DQG)DLUJURXG)RXQGDLRQH [HFranses participated in workshops facilitated by UC academics and external stakeholders. The event concluded with a panel discussion between Veronica +DUZRRG 6WHYHQVRQ)RXQGHU DQG (2RI +XPEOH %HH 7 Christchurch City & RXQFLO %ULDQQH :HVW)RXQGHU DQG (2RI (V Entrepreneur, Inventor and Scientist. The MC was Rod Oram, awarding international business MRXUQDOLVW DQG IRXQGLQJ WUXVWHH DQG VHFSDG FKDLU enterprises to develop sustainable business models. One key message that the entire panel agreed on

Finances:

September 2020	Actual Year to Date \$000	Budget Year to Date \$000	Budget Variance Year to Date \$000 Fav/(Unfav)	Budget Full Year \$000	Forecast Full Year \$000	Full Year Forecast to Budget Variance \$000 Fav/(Unfav)
Net Surplus/(Deficit)	4,329	(2,910)	7,239	3,818	2,422	(1,396)
Capital Expenditure	66,299	86,805	20,506	111,988	88,370	23,618
Cash/ Short Term Investments	226,892	196,927	29,965	153,628	199,803	46,175

: H KDG EHHQ EXGJHWLQJ as at the end of September 2020 of (\$2.910)
 million, but have returned an operating surplus of \$4.329 million.

This is a favourable variance to budget of \$7.239 million. This favourable variance mainly relates to
 \$24.428 million less operating expenses (largest savings are in travel and conference expenses,
 consultancy expenses, outsourcing/ contracts, scholarships, commission and levies, contract
 teaching, contractors, promotional activities, and laboratory consumables), the majority being
 related to the impact of the Covid-9 lockdown. Some of these favourable variances will be
 sustained and have been reflected in the year end forecast.

Other favourable variances relate to \$0.730 million of 2019 SAC funding and \$0.421
 million more interest income.

This favourable variance has been partially offset with unfavourable variances coming from
 (\$4.269) million less research external income, (\$7.036) million less full fee tuition income,
 (\$2.375) million more depreciation, and (\$2.660) million less dry income.

: H DUH IRUHFDVWLQJ IRU D VXUSOXV IRU WKH IXOO \HDU R
 LQ UHODWLRQ WR IXOO IHH WXLWLRQ IHHV 3%5) UHVHDFU
 relation to depreciation expenditure and retirement provision, are largely offset by improved interest
 revenue and forecast reductions in expenses in relation to personnel and operating expenses.

Capital expenditure is \$20.506 million below budget. Most projects are under budget but expenditure related to the UC futures projects is (\$6.904) million over the year to date budget of \$2.481 million, largely as a result of the \$9.183 million Rehua final payment paid in March that was not considered in the budget. The remaining capital spend (excluding COVID-19) is \$27.410 million, against a year to date budget of \$84.324 million. As one might expect, the Covid-19 lockdown significantly curtailed capital expenditure, but which is now returning to normal levels.

The September 2020 cash position of \$226.892 million is higher than budget by \$29.965 million. The higher than expected opening cash balance and lower capital spend has been partially offset by less cash from operating activities (largely due to less income).

Please refer to the latest monthly financial report.

against all of them. This has involved understanding the needs of all stakeholders, identifying where we will gain the greatest traction, and focussing our work on those few SDGs.

The Sustainability Culture Index survey for students was distributed in late September and received 2,154 responses. The staff version of this survey has been analysed, and reveals an average score of 4.5 out of 5. This is a positive result for a survey of this kind. The full results of both the staff and student surveys will be presented together when they are available.
